1 Microbes colonise surface of BioCote® protected GRX castor.
 Mikroben auf der Oberfläche der GRX Rolle.
 Les microbes contaminent la surface de la roulette GRX protégée par BioCote®.
 Microorganismos contaminan la superficie de la rueda GRX protegida por BioCote®.

2 Silver ions are available to act against colonising microbes.
 Silberionen kommen mit den Mikroben in Berührung.
 Les ions d'argent sont prêts à agir contre les bactéries contaminantes.
 Los iones de plata están disponibles para actuar sobre las bacterias contaminantes.

i Silver ions combine with microbe proteins in the cell and cell wall.
 Silberionen verbinden sich mit Proteinen in Zellenwand und der Zelle.
 Les ions d'argent s'associent avec les protéines intracellulaires et les protéines de la paroi cellulaire des bactéries:
 Los iones de plata se unen con las proteínas de los microbios en las células y en sus membranas;

ii Silver ions interfere with DNA replication.
 Silberionen greifen die DNS Fortpflanzung an.
 Les ions d'argent interfèrent avec la réplication de l'ADN;
 Los iones de plata interfieren con la replicación de ADN;

iii Silver ions promote formation of reactive oxygen species.
 Silberionen regen Sauerstoffradikale in der Zelle an.
 Les ions d'argent entraînent la formation d'espèces réactives.
 Los iones de plata promueven la formación de especies de oxígeno reactivas.

3 Silver ions act against microbes in three ways:
 Die Mikroben werden in 3 Phasen angegriffen:
 Les ions d'argent agissent contre les bactéries de trois façons:
 Los iones de plata actúan sobre las bacterias de tres maneras:

4 Microbes die, GRX castor is cleaner and more hygienic to use.
 Die Mikroben sterben ab.
 Les bactéries meurent, et la roulette GRX est plus propre et plus hygiénique.
 Los microbios mueren, y la rueda GRX está más limpia y más higiénica.

GRX ANTIMICROBIAL CASTORS WITH BioCote® TECHNOLOGY

Designed for use in care homes, hospitals and other environments where surface protection from microbes is important, Guy-Raymond's antimicrobial castors incorporate BioCote® silver ion technology.

BioCote® technology:

- inhibits the growth of microbes such as odour causing and staining bacteria, moulds and fungi, disrupting the normal cell function of microbes and stopping them from reproducing;
- starts to have an effect after just 15 minutes;
- reduces the level of microbes on the treated surface by up to 99% in two hours;
- will not wear off or wash away, because the antimicrobial additive is incorporated into the castor tyre and pedal at the time of manufacture.

Further information about BioCote® technology is available at www.biocote.com.

BioCote® is a registered trademark of BioCote Limited. This product does not protect users or others against disease causing bacteria, germs, viruses or other harmful organisms. BioCote always works best in environments which are regularly cleaned.
This technology is not a substitute for good hygiene and/or cleaning practices.

GRX ANTIMIKROBIELLE ROLLEN MIT BioCote® TECHNOLOGIE

Überall da wo Schutz vor Keimen, Bakterien, Viren und Schimmel an oberster Stelle steht. In Krankenhäusern, Pflegeheimen und Küchen hilft die neue Guy-Raymond GRX Antimicrobial Rollenserie mit BioCote® antimikrobiellen Silberionen.

Wie?

- Silberionen bekämpfen Viren, Bakterien und Schimmel, in dem sie die normalen Zellenfunktionen stören und somit deren Fortpflanzung und Verbreitung unterbinden.
- Die Wirkung der Silberionen kann schon nach 15 Minuten nachgewiesen werden.
- Nach 2 Stunden ist ein Mikrobenrückgang von bis zu 99% erkennbar.
- Es handelt sich nicht um eine einfache Beschichtung, die Wirkung der Silberionen nutzt nicht ab da es vor der Produktion der Rolle im Kunststoffgemisch des Rades und des Bremshebels mitinkorporiert wird.

Weitere Informationen zu BioCote® Silberionen finden Sie unter www.biocote.com

BioCote® ist ein eingetragenes Warenzeichen Marke der BioCote Limited. Dieses Produkt bieten seinen Benutzern oder Anderen keinen Schutz vor krankheitserregenden Bakterien, Keimen, Viren oder anderen Schadorganismen. Grundsätzlich funktioniert BioCote am besten in den Umgebungen, die regelmäßig gereinigt werden.
Diese Technologie ist kein Ersatz für eine gute Hygiene-bzw. Reinigungspraxis.

NOUVELLES ROULETTES GRX ANTIMICROBIENNES AVEC LA TECHNOLOGIE BioCote®

Destinées aux maisons de soins, aux hôpitaux et aux autres environnements dans lesquels la protection des surfaces contre les microbes est importante, les roulettes antimicrobiennes Guy-Raymond comportent la technologie d'ions d'argent BioCote®.

La technologie BioCote® :

- Inhibe la prolifération de bactéries, moisissures et champignons, perturbant leurs fonctions cellulaires normales et arrêtant leur multiplication.
- Commence à avoir de l'effet après seulement 15 minutes;
- Réduit les niveaux de contamination bactérienne sur les surfaces traitées jusqu'à 99% dans un délai de deux heures;
- Ne sera pas effacée ou enlevée par le nettoyage, car l'additif antimicrobien est intégré dans les bandes souples et la pédale de frein de la roulette lors de la fabrication.

Pour des renseignements complémentaires sur la technologie BioCote®, merci de consulter le site www.biocote.com

BioCote® est une marque déposée de BioCote Ltd. La technologie BioCote® ne remplace pas le nettoyage. Ce produit comporte la technologie antimicrobienne sous forme de verre de phosphate d'argent pour préserver la surface et prévenir la dégradation provoquée par la prolifération de microbes.

RUEDAS GRX ANTIMICROBIANAS CON LA TECNOLOGIA BioCote®

Proyectadas para los productos destinados a hospitales y otros sitios que requieren altos niveles de higiene, las ruedas antimicrobianas de Guy-Raymond son protegidas por la tecnología de los iones de plata de BioCote®.

La tecnología BioCote® :

- inhibe el crecimiento de bacterias, moho y hongos, interrumpiendo sus funciones celulares normales y impidiendo su reproducción;
- empieza a tener efecto después de sólo 15 minutos;
- reduce los niveles microbianos hasta en 99% en dos horas;
- no se desgasta y no se la lleva la limpieza, porque el aditivo antimicrobiano es incorporado en el pedal de freno y la rodadura de la rueda en el momento de fabricación.

Más información sobre la tecnología BioCote® está disponible en el sitio www.biocote.com

BioCote® es una marca registrada de BioCote Limited. La tecnología BioCote no sustituye a la limpieza sino que la complementa. Este producto contiene la tecnología antimicrobiana (vidrio de fosfato de plata) para preservar la superficie y prevenir la degradación provocada por el crecimiento bacteriano.
