

WE ARE RECRUITING

Auto Forging Department: **Production Turner/Multi-Spindle Automatic Lathe Machine Setter**

We seek a Production Turner/Multi-Spindle Automatic Lathe Machine Setter to join our team working in our Auto Forge Department, producing high quality, volume, metal parts.

The ideal candidate would be someone who is keen to maintain their traditional skills, with proven experience in the following fields:

- The ability to read and interpret engineering drawings.
- Be familiar with machining and turning operations.
- Experience on Traub single spindle; multi-spindle Wickman; and Cucci Bar Loaders is desirable, but full training will be provided.
- Able to set machinery and carry out routine maintenance.
- Tool grinding; resharpening; and resetting of tooling.
- Able to load material on machines and assist in the unloading of material deliveries.
- Swarf removal and spinning.
- Accurately use measuring and weighing equipment.
- Have a keen attention to detail and ability to inspect components being produced.
- Recording of metal usage and other daily records.
- Good communication skills.

The position is full time, working 37.5 hours per week, Monday to Friday, on alternating day shifts (5.55am to 1.55pm and 1.55pm to 9.55pm).
